

IMPORTANT INFORMATION FOR ALL PATIENTS

FTC 16 CFR Part 681 III-Detecting Red Flags

Federal law requires all healthcare practices to obtain, verify, and record information that identifies every patient (new & existing).

What this means for you: As a patient with our practice you are opening (or have already opened) an “account”. We will ask you for your name, address, date of birth, and other information that will allow us to identify you. We may also ask to see your driver’s license or other identifying documents. Typically, we will take a digital photograph of each patient that attaches itself to your ledger file within our computer system. This will be our process to comply to the Federal **Red Flag** Rules and will be used as a permanent record of your identify.

Thank you for your compliance.

Drs. Menaker & Rodney
